

Ferragudo Dreams workations

MAKE MEMORIES THAT LAST FOREVER

I am a workation expert and Portugal addict. Currently I work and live about 6 months a year in Ferragudo, the other 6 months I work and live in the Netherlands. At the end of March 2022, I started Ferragudo Dreams: organizing workations for companies, individuals, teams, clubs etc. and I unburden the customer taking on all the responsibilities ensuring a successful workation.

I have been coming to this lovely village for years and besides holidays, I found it very attractive to also work in this relaxed atmosphere. This is what I want to let fellow entrepreneurs experience as well, being able to work in an inspiring environment, feel the different energy and enjoy the weather, the fantastic restaurants and get to know the people.

Over the years I have built up a valuable network in Ferragudo and I can advise 'workationers' on all aspects of their stay, certain rules, sights, etc.

It is of great value for the growth and development of yourself, your company, or your team to work in another location. For example, if you lack inspiration for that new book, have no focus on that cool project, or as a photographer are looking for the most photogenic places for your photo shoots; this is the place to be!

I know from experience that inspiration and focus come naturally as soon as you are here.

You can book your workation through the website. As soon as I get your request, I will get in touch to discuss your wishes, dates etc. and then I will suggest accommodation fit for you, your company, or your team. We offer a range of workshops and activities and you can book them together with your workation. I work with different accommodation places in Ferragudo, to suit all needs and goals – choosing the right location is very important. Workations can be booked all year round, but my advice is to avoid peak season prices and enjoy a workation from September/October till March/April

My love for Ferragudo gives me a lot of inspiration and energy and it really doesn't just stay with workations. By entering collaborations with entrepreneurs in the region and the municipality, there are many great plans on the agenda for 2023 and years to come. ■
